

Whisperline® Console

Water Source Heat Pump
with R-410A Refrigerant

- Fast and Easy replacement
- Efficient Operation
- Clean and Quiet Operation

Whisperline® Console Water Source Heat Pump

The Whisperline® WCS series water source heat pump console unit provides environment friendly, high efficiency, cooling and heating where individual, quiet control of space is a priority.

The WCS series is designed with the growing retrofit market in mind, making it an ideal choice for renovation or new construction projects. The unit cabinet is powder-painted appliance-grade steel and includes an attractive extruded aluminum grille and control door.

The WCS series has two chassis sizes, small (models 08, 10 and 12), and large (models 15 and 18). Quality components, careful design and testing, and the latest in environmentally friendly technology advances assure long life, user satisfaction, and lower energy cost.

Standard Features:

- Made in the USA
- Designed for easy installation and compatibility.
- ETL approved
- Quiet, durable, and efficient compressor with built-in pressure and temperature protection
- Heavy gauge G90 galvanized steel construction
- Powder-painted drain pan
- High efficiency copper tube-aluminum fin evaporator coil
- High efficiency coaxial condenser coil with low water-side pressure drop
- Unit-mounted digital controls
- Electronic control board with anti-short cycle protection
- High pressure switch
- Frost-free cooling
- Water coil freeze protection
- Refrigerant circuit access ports
- Capillary expansion
- Positive shift reversing valve
- Precision charged with R-410A refrigerant
- 1/2 Inch water connections
- Electrostatic air filter

Electrical Data*

Benefits that Make a Big Difference

When you consider all of the features of Whisperline® Consoles, it's easy to see why they deliver so many benefits to contractors and users alike.

The WCS Series is the perfect solution for new construction and replacement projects the competition can't match. The Whalen Company backs the WCS with a customer friendly one-year parts and labor warranty and five-year compressor warranty.

Damage Protection

The standard high-pressure switch and evaporator coil freeze protection, in conjunction with the electronic control board, stops unit operation before damage occurs, should airflow become reduced or obstructed due to dirty filters, obstructed airflow, or motor failure. A freezestat protects the water coil from freeze damage due to water temperature or flow problems. The water coil is designed for low water-side pressure drop, eliminating potential

pump sizing and water flow problems. High efficiency compressors provide demonstrated reliability and low sound levels and cut energy costs.

Fast and Easy Replacement

Because the WCS dimensions and construction details were established with retrofit projects in mind, replacement work is fast and easy. With the compact footprint and a cabinet height short enough to fit under window sills, the need for expensive room renovation, redecorating, or piping & wiring changes is eliminated. The WCS is the solution that gets your property back in service quickly and at the lowest total cost.

Optional Chassis Only

These console units are offered as chassis-

only to work with the existing or custom room cabinets or with a new cabinet for a complete installation. The chassis contains the compressor, air side heat exchanger, water side heat exchanger, evaporator fan motor, and control and safety components.

Options and Accessories

- Room cabinet (LH and RH available)
- Flow control valve
- Electric or hydronic heat
- Control options
- Valves and unions
- Line cords
- Boilerless
- Hose kits
- Customer-specified custom features
- Low temp option

Behind every unit that carries the Whalen name is a singularity of purpose: the engineering and manufacturing of products that improve the quality of life for our customers.

Our long-term commitment to this endeavor assures you of systems that are distinctive in **concept**, **performance**, **reliability** and **value**.

The number of industry "firsts" from Whalen is impressive. They include:

- The industry's first vertical stack valveless fan coils
- The first vertical stack heat pump offering
- The first removable chassis closet-type heat pumps
- The first AHRI-listed water-cooled air conditioning units with hydronic heat

Let us put Whalen innovation to work for you, too. Find out how our approach to your project will deliver a "perfect fit" solution – and make your life easier.

Need to locate a sales representative? Whalen's sales rep locator tool was designed to help you easily find a Whalen sales representative within the United States and Canada.
