- Water Source Heat Pumps

The Industry's First Choice for Multi-Story Heating and Cooling

Established in 1962, The Whalen Company is one of America's most innovative leaders in the commercial HVAC industry. As originators of vertical stacked fan coil units and heat pumps, we are committed to offering practical solutions for developers, architects and builders that reduce costs and improve performance.

The history of The Whalen Company demonstrates our commitment to purpose-driven engineering and operational efficiency. With one of the broadest portfolios of products offered of any manufacturer, The Whalen Company has the product to meet the needs of virtually any building.

WATER-SOURCE HEAT PUMP PRODUCTS

Whisperline® Vertical Stack

- 14.0 EER
- 200 to 1,200 CFM
- Slide-out chassis for ease of service
- Optional ECM variable speed motor
- Optional closed cell or foil faced insulation
- Stainless steel drain pan standard
- Factory mounted internal water options
- Microprocessor controls standard

Whisperpack® Vertical Stack

- 14.0 EER
- 200 to 1,200 CFM
- DX cooling with hydronic heating
- Slide-out chassis for ease of service
- Optional ECM variable speed motor
- Optional closed cell or foil faced insulation
- Stainless steel drain pan standard
- Factory mounted internal water options
- Microprocessor controls standard

Whisperline® Ducted Vertical

- 14.0 EER
- 200 to 1,200 CFM
- Slide-out chassis for ease of service
- Optional ECM variable speed motor
- Optional closed cell or foil faced insulation
- Stainless steel drain pan standard
- Factory mounted internal water options
- Microprocessor controls standard

Whispertherm® Vertical Stack

- 14.0 EER
- 200 to 1,200 CFM
- Integrated HRV/ERV module for outside air ventilation
- Reverse cycle WSHP or DX cooling with hydronic heating
- Slide-out chassis for ease of service
- Optional ECM variable speed motor
- Optional closed cell or foil faced insulation
- Stainless steel drain pan standard
- Factory mounted internal water options
- Microprocessor controls standard

WATER-SOURCE HEAT PUMP PRODUCTS

Closetline® Packaged Vertical

- 17 EER
- 200 to 2,200 CFM
- Quiet operation
- Solid state control with 8 safeties standard
- Optional hot gas reheat
- Optional factory mounted control valves
- Optional hot gas reheat for temperature and humidity control
- Optional hybrid heating and cooling operation
- Optional EC constant torque motor
- Optional E-coated air coil for corrosion protection

Closetline® Packaged Horizontal

- 17 EER
- 200 to 2,200 CFM
- Quiet operation
- Solid state control with 8 safeties standard
- Optional hot gas reheat
- Optional factory mounted control valves
- Optional hot gas reheat for temperature and humidity control
- Optional hybrid heating and cooling
- Optional EC constant torque motor
- Optional E-coated air coil for corrosion protection

Whisperline® Two-Stage Vertical Stack

- 18.5 EER
- 800 to 1,200 CFM
- 2-stage scroll compressor and ECM motor resulting in superior efficiency and comfort
- Best-in-class sound levels and quiet operation
- Service friendly features for easy repair and installation
- Floating compressor design and cabinet isolation pad to minimize vibration transmission

Whisperline® Console

- 14.0 EER
- 250 to 540 CFM
- Advanced digital auto change-over unit mounted control with temperature display, and speed selection
- Microprocessor controls standard
- Right or left-hand piping arrangement
- Powder-painted drain pan

More than a half-century after our founding, The Whalen Company continues to provide solutions for new and replacement air conditioning applications, with a steadily increasing line of products. We have participated in thousands of applications worldwide including hotels, motels, condominiums, apartments, senior living facilities, office buildings, schools and dormitories.

Our flexibility and expertise allow us to meet the needs of our customers by providing a design that fits seamlessly into the building rather than forcing the building to fit the equipment.
