

Closetline® Packaged Water Source Heat Pump

# Closetline® Water Source Heat Pump

# Great for a Variety of Applications

The Closetline® CAS series from The Whalen Company boasts a compact cabinet, making this heat pump system the perfect solution for commercial retrofit or new construction applications.

The Closetline® CAS series far exceeds the ASHRAE 90.1 minimum efficiency and utilizes environmentally friendly R-410A refrigerant to reduce operating costs without compromising the environment. Closetline® water source heat pumps are popular in a variety of building applications where quiet operation in a compact footprint is a key requirement.

# Ideal for New Construction and Rehabilitations – Low-Rise and High-Rise

True to our commitment to offer equipment that's flexible enough to meet the design of the building rather than forcing a building to conform to limitations of the equipment, our Closetline® packaged water source heat pumps can be applied to virtually any type of building.

With its compact footprint, the Closetline® CAS Series is particularly advantageous for new construction or renovation of apartments, condominiums, hotels, senior living facilities, dormitories and office buildings.

# Benefits that Make a Big Difference

When you consider all of the features of Whalen units, it's easy to see why they deliver so many benefits to contractors and users alike.

## **Compact Footprint**

Compact cabinet design with quick access for ease of service. Horizontal units can be serviced through the unit bottom to virtually eliminate removing ceiling mounted units for service.

## R-410A Refrigerant

Environmentally friendly, non-ozone-depleting refrigerant to protect the Earth.

### **Fan Operation**

Oversized blower for quiet operation. A constant torque multi-speed EC motor is standard for economical operation with soft start and serviceable from one side.

#### Drain Pan

Internally trapped (vertical models), stainless steel drain pan for years of trouble-free service.

#### Compressor

Compact and efficient compressors, with double isolation for quiet operation.

#### **Reliable Operation**

Thermostatic expansion valve maintains maximum capacity under a wide range of operating conditions.

## Coaxial Heat Exchangers

Heavy duty coaxial heat exchanger for reliability. Enhanced internal surface treatment for increased efficiency (CuNi available).

#### Easy to Install

Water connections are securely mounted flush to the cabinet to eliminate the need for a backup wrench.

#### **Electronic Control Board**

Each unit ships with solid state microprocessor controls with safeties built-in for reliable protection.

#### **Built to Last**

Satin galvanized and acoustically insulated cabinet for years of quiet operation.

# **Geothermal Application**

Unit capable of operation on a closed loop or a water well installation.
